## THE STATE OF NEW HAMPSHIRE

---

(L. S.)

To the Inhabitants of the Town of Greenland in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Greenland on Tuesday, the fourteenth day of March next, at 10 of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same.

3. To see what sum of money the town will raise and appropriate for repairs of highways and bridges.

4. To see if the town will vote to accept State Aid for construction of Class V roads and raise and appropriate the sum of \$86.50 for said purpose.

5. To see what sum the town will raise and appropriate for the support of the Weeks Public Library.

6. To see if the town will vote to raise and appropriate the sum of \$50.00 for the care of cemeteries.

7. To see if the town will vote to raise and appropriate the sum of \$125.00 for the care of parks.

8. To see if the town will vote to raise and appropriate \$50.00 for the issuance and distribution of printed matter and otherwise publicizing the resources and natural advan-

tages of the town, in cooperation with other towns coordinated in the Seacoast Regional Development Association.

9. To see if the town will vote to raise and appropriate the sum of \$450.00 for the purpose of spraying the elm trees along the highways.

10. To see if the town will vote to raise and appropriate the sum of \$25.00 for the purchase of forest-fire fighting tools.

11. To see if the voters of the town will authorize the Selectmen to borrow money on short-term notes in anticipation of taxes.

12. To see if the town will vote to renew the lease of the Town Hall to the Veterans' Association.

13. To see if the town will vote to use the Australian Ballot in future town meetings.

14. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this 21st day of February, in the year of our Lord nineteen hundred and thirty-nine.

ARTHUR J. SEWALL,  
THOS. J. BRACKETT,  
CLARENCE E. GOWEN,

## REPORT OF LIBRARIAN

---

The forty-second annual report of the Weeks Public Library follows, showing the work for 1938-39:

No time has been lost during the year because of holidays or inclement weather, so the Library has been open 105 afternoons and evenings and the regular work has gone on as usual. The High School pupils are each year making more use of our resources in connection with their school work and we need more books to satisfy their needs than our funds permit. A number of adults also express a desire for more than we can supply because the same amount of money does not go as far now that some of the novels most in demand are priced at \$2.75. In many cases we have made use of the opportunity of borrowing books from the State Library and we are always ready to try to get from them anything that our patrons may need.

Accession number of volumes	9,371
Added by purchase	133
Volumes discarded	17
Volumes removed from shelves	39
New borrowers registered	40
Magazines subscribed to	4
Magazines presented	12
Circulation for the year	5,273
Fiction	4,643
Non-fiction	630
Juvenile	1,132
Average daily circulation	45
Largest daily circulation	75
Smallest daily circulation	21

There have been practically no repairs on the building this year but some extra work was done on the lawn.

Through the kindness of Mr. Miller two rows of white pines have been set out which will serve as a wind break after they attain their growth.

Thanks are due to those who have given magazines to our reading tables.

Respectfully submitted,

LILLIAN A. ODELL,  
Librarian.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board of Greenland, New Hampshire:

It gives me pleasure to submit to you my annual report as Superintendent of Schools, the tenth in the series.

The following paragraph, addressed to the combined school boards of all the districts in Supervisory Union Number Sixteen, is included in my reports to each of the several districts.

"Through the twenty years since the enactment of the almost revolutionary equalization school law of 1919, you and your predecessors, to the number of sixty, have brought to the schools of your individual districts, not only the best of your thought and effort, but you have continuously shown such mutual co-operation as to make this law workable and productive of the best results in all the schools of Union Number Sixteen. This expenditure of time and effort by you is of the very essence of good citizenship. When individual willingness to serve is combined with such cooperation as school officials, parents and citizens in general have practised in this Union, then the greatest good results. Since the children who were born in the year this law took effect have now finished the high school grades, a school generation attests the merits of your cooperative democratic service."

The number of Greenland pupils enrolled during the last school year in our elementary grades was one hundred nine. In the last ten years the enrollment has averaged one hundred twelve, varying from one hundred twenty-four to ninety-seven. A glance at Table I shows us that this year's enrollment to date is eighty-

seven. Since it seems unlikely that we shall enroll ten new pupils before June, we need not be surprised to find that this year's enrollment is the smallest for a dozen years. It is probable likewise, that the present high school enrollment of forty-seven is the largest in the same period. It is interesting to note in Table V that high school cost per pupil per \$1000 of equalized valuation has in the last ten years risen from \$1.92 to \$7.14. This increase is due partly to the larger number of pupils attending high school, partly to an increase in tuition rates, and partly to property valuations in the district. I should like to say here that, although the total cost of high school tuition for Greenland pupils is very high, the pupils are making good use of the opportunities this provides, as is shown by the creditable marks and class standing that practically all of the Greenland pupils in the high school grades receive. It seems possible to predict that probably within a few years the number attending high school will be much smaller than now. While it seems, also, reading Table V, that Greenland's total current cost per \$1000 of equalized valuation is high, as compared to that of other districts, (her place is two hundred thirty in the two hundred forty-one districts) it should be remembered that Greenland's valuations have been greatly reduced in the last ten years. (See the last column of Table V.)

I am glad to report in Table III that Greenland had the best attendance record last year since 1931; the thirteen pupils reported in Table VII as having had perfect attendance for the year to be congratulated. Perfect attendance by such a large per cent of a school is not usual. One more item in Table III is of special interest, namely, five hundred twelve parents and interested citizens visited the school at some time during the year. This, also, is a new high mark.

I take this occasion to say once more that our special teacher of coking and sewing has maintained her former high order of accomplishment. She not only teaches her courses skilfully, but by experience and personality makes that teaching effective in living.

Subjective and informal judgements, as well as objective tests indicate that the four regular teachers of our faculty are worthy of our confidence. It is possible, with the small number of pupils in some rooms, to do much individual work, and the teachers avail themselves of this opportunity. In recent years several of them have sought further professional training in advanced courses. I hope that the large number of citizens who visited the schools last year and saw the teachers at work will again do so this year.

Every year brings further evidence that money spent on the health of our school children produces very high dividends. We have been fortunate since a year ago in the matter of epidemics, even though some undetected cases of scarlet fever confused and occupied our minds for a few days last fall. Through the wise cooperation of our nurse, Mrs. Sheehy, and the State Board of Health, there were only a few cases of the disease. That the community may not be faced with such disturbances, and that the lives of our children may not be endangered by such potentially dangerous diseases as scarlet fever, we should all cooperate wholeheartedly with Mrs. Sheehy in her varied kinds of work in the school.

By reason of the repairs you made during last summer and the painting done then, the school house is in good condition. Since a freshly painted building is apt to suggest better care on the part of those who use it, we have profited in this respect. Wraps and rubbers are usually where they ought to be, furniture is orderly and there are many other evidences of good housekeeping on

the part of the children and teachers. I hope the day is not far distant when an oil burner will replace soft coal and so not only produce evenner heat at the times when needed, and less dirt, but make it possible for the janitor to put all his time on cleaning and care of the building.

I wish, in closing, to register my appreciation for your hearty interest in the professional side as well a the material side of the school. I am sure the teachers would desire to be included in this statement and with me pledge our earnest efforts to maintain a happy and efficient school in Greenland.

Respectfully submitted,

CLIFTON A. TOWLE,

Superintendent of Supervisory Union No. 16

Exeter, New Hampshire, February 14, 1939.
